I am pleased with the 2008 budget which is overall a very conservative budget with only a 3.6% increase in spending over the 2007 budget. The 2008 budget includes a 4% cost of living increase for all county employees except elected officials who will receive a 3% increase as provided by state statute. The budget also reflects a tax millage rollback on assessments of 6.25% and a property tax millage cut of 5.6% for a total of approximately a half-million dollar savings for the taxpayers.
